Q64A. [SPLIT A] Below is a statement some people have made about the recent increases in coronavirus cases. Please indicate whether you agree or disagree with the following statement after you have read it.

Republican officials deserve blame for the increase in cases: they have downplayed the virus since the beginning of the pandemic and are doing it again with the Delta variant. They oppose the advice of medical experts to wear masks and encourage the spread of misinformation which is discouraging vaccination and prolonging the pandemic.

Q64B. [SPLIT B] Below is a statement some people have made about the recent increases in coronavirus cases. Please indicate whether you agree or disagree with the following statement after you have read it.

Americans who are choosing to not get vaccinated deserve blame for the increase in cases: the vaccine is available and free, but their decision not to get it means the virus is spreading and prolonging the pandemic, reducing hospital capacity for all emergencies and leaving everyone - including those who are vaccinated - at risk.
