Q57. Biden and Democrats' new economic plan would be paid for by increasing taxes on the top 2% of income earners, raising taxes on those earning over $1 million a year from selling stocks and bonds, known as capital gains, raising the corporate tax rate from 21% to 26.5%, and cracking down on tax evasion. Knowing this, do you support or oppose this legislation?

Q59. As you may know, if this $3.5 trillion spending bill doesn't pass, an infrastructure bill that recently passed in the Senate with bipartisan support is unlikely to get signed into law because some members of Congress only agreed to support it if the larger economic plan is also passed by Congress. Q64. As you may or may not know, if Congress does not raise the debt ceiling, the federal government will have to shut down most of its operations, which would have significant negative impacts on the economy: the government would not be able to send out payments such as Social Security or paychecks to federal government employees. Knowing this, do you support or oppose Congress passing a bill to raise the debt ceiling so the government can continue paying its obligations?
