Q49. As you may know, the debt ceiling is a limit to the amount of money the U.S. government can borrow to pay its bills. The U.S. government is currently at its limit on the amount of money it can borrow, forcing the Treasury to take “extraordinary measures” for now. When this has happened in the past, the U.S. government has raised its debt ceiling, or the limit to what it can borrow, so that it can pay its bills. If the debt ceiling is not raised, the U.S. will eventually default on its bills. Do you support or oppose Congress raising the debt ceiling?
