Q28C. [SPLIT C] Please read the statement below and answer the question that follows.

[NO ENERGY] Democrats passed new laws that are already starting to lower costs by bringing supply chains back to America, capping the price of insulin at \$35 a month, and, for the first time, giving Medicare the power to negotiate lower prices for prescription drugs, which will start lowering drug costs later this year. But they know that's just a start, which is why Democrats are working to crack down on corporate investors who are driving up the cost of homes by buying up housing stock and on the CEOs of big grocery store chains who are making record profits by gouging us with high food prices.

How convincing do you find that statement as a reason to support Democrats' economic agenda?

[WITH ENERGY] Democrats passed new laws that are already starting to lower costs by bringing supply chains back to America, capping the price of insulin at \$35 a month, giving Medicare the power to negotiate lower drug prices, and expanding affordable clean energy, which will save American families hundreds of dollars a year in electricity bills. But they know that's just a start, which is why Democrats are working to keep inflation under control by cutting wasteful spending and cracking down on corporate investors who are driving up the cost of homes by buying up housing stock, and on the CEOs of Big Oil companies who are making record profits by gouging us at the pump.

Q60. Here is some more information about this proposed legislation:

Republicans and Democrats negotiated a bipartisan deal to increase border security and make it harder for migrants to claim asylum. President Biden said he would sign the bill into law, but it did not pass after Donald Trump told Republicans to vote against it.

Which of the following statements do you agree with more about this?

• Republicans in Congress are hurting our economy by voting against this immigration deal. Countless companies have job openings that immigrants could help to fill, but without a legal way for them to work, we continue to have worker shortages that contribute to inflation and higher costs for everyone	32%	25	9	7	27	57%	16
