As you may know...

[SPLIT CE - LONGER HISTORY + MEDICATION ABORTION] The Comstock Act was spearheaded by self-described "anti-sex crusader" Anthony Comstock and signed into law by President Ulysses S. Grant in 1873 - over 150 years ago. This law gives government the power to search, confiscate, and destroy anything mailed or shipped that officials deem "obscene" or "indecent," including medication used to cause an abortion. And worse, it gives the government the power to jail anyone who sent or received that material in the past five years. The government repeatedly used this "chastity law" to justify jailing doctors who provided abortion care and to burn millions of books, pictures, and news sources. The Comstock Act hasn't been enforced for decades but now that anti-abortion extremists have successfully overturned *Roe v. Wade* and taken away the Constitutional right to an abortion, they want to go a step further. These extremist politicians are pushing the next president to enforce the Comstock Act, which would ban doctors and pharmacies from shipping FDA-approved medication abortion and women from using it, in all 50 states, even in those where abortion is currently legal. It would end access to medication abortion nationwide.

[SPLIT CF - LONGER HISTORY + ABORTION GENERALLY] The Comstock Act was spearheaded by self-described "anti-sex crusader" Anthony Comstock and signed into law by President Ulysses S. The government repeatedly used this "chastity law" to justify jailing doctors who provided abortion care and to burn millions of books, pictures, and news sources. The President couldn't enforce The Comstock Act when *Roe v. Wade* was in effect. Now that *Roe v. Wade* has been overturned and no longer protects the legal right to abortion, the President can enforce The Comstock Act. Extremist politicians are pushing the next president to enforce the Comstock Act, which would ban abortion with no exceptions, in all states, even in those where abortion is currently legal. It would even ban FDA-approved medication abortion, which accounts for more than half of all abortions nationwide. It would end access to abortion nationwide.
