**Q34.** How concerning do you find the following statement about anti-union efforts from Republican politicians?

*Most Republicans oppose labor unions and have passed laws making it harder for labor unions to protect working people and increase wages. Policies pushed or already passed by Republicans across the country include banning collective bargaining, eliminating health and safety protections, and letting companies that cheated workers out of their wages off the hook. Republicans oppose raising the minimum wage and want to go further, removing rules in place to ensure workers are paid fairly. If they get their way, even more power will shift from working people back to billionaires and big corporations, allowing them to further rig the system at the expense of working families.*
