Trump Atmospherics: A Guide for Advocates

Key Takeaways:

- Americans are increasingly hearing negative information about Trump, with tariffs, rising costs, Musk's involvement in the administration, and the firing of government workers standing out.
- Americans who disapprove of Trump's handling of the economy say it is because of high prices and new tariffs. Nearly nine in ten Americans say the cost of eggs is on the rise, and bipartisan majorities say the same of their costs generally.
- While inflation and the economy remain top priorities for Americans, declining shares say Trump and Republicans are focused on either.

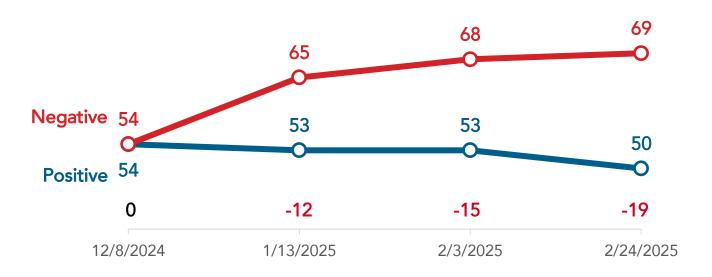

For Those Hearing Negative on Trump, Tariffs, Mass Firings, Musk, and Actions on Ukraine Are Defining the Conversation

Americans are increasingly hearing more negative information on Trump since December, from 54% hearing negative/a mix of positive and negative information in December to 69% hearing negative/a mix of positive and negative now.

Over the past few days, has what you have seen, read, or heard recently about Donald Trump been:

[If hearing any negative] In a few words, what negative things have you seen, read, or heard recently about Donald Trump?

*This latest survey fielded before the recent press conference between Donald Trump, JD Vance, and Volodymyr Zelenskyy on Friday, February 28th. Nationwide surveys of registered voters; Each wave represents approximately 1,000 interviews taken over the prior three-five days. Latest wave conducted February 20-February 24, 2025. Majorities Want to See Democrats Stand Up to Trump – More Than Said As Much Before the 2018 Midterms

Since November of 2018, Democrats (from net +64 stand up to net +70) and independents (from net +9 stand up to net +27) have grown more supportive of Democrats in Congress standing up to Trump than working with him.

On a scale of 1 to 5, where 1 means "work with President Trump all the time" and 5 means "stand up to President Trump all the time," what do you think Democrats in Congress should do?

*"2024 Trump, Strong Approvers" are self-reported 2024 Trump voters who strongly approve of the job he's doing as president; "2024 Trump, Not-Strong Approvers" are self-reported 2024 Trump voters who do not strongly approve of the job he's doing as president.

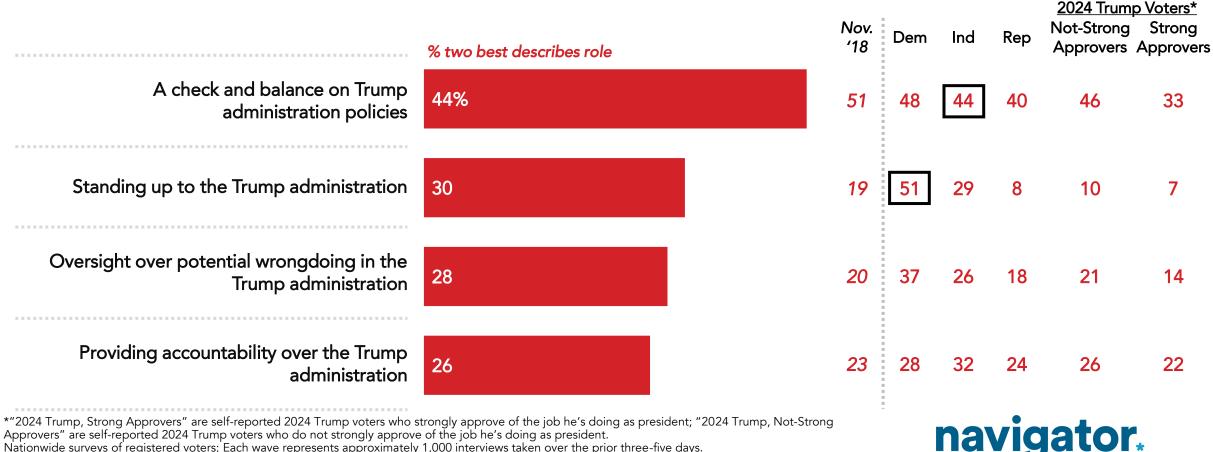

**The previous survey's sample size of this group was too small to show results. Nationwide surveys of registered voters; Each wave represents approximately 1,000 interviews taken over the prior three-five days. Latest wave conducted February 20-February 24, 2025. Americans Most Want Democrats to Serve As a Check and **Balance On Trump and to Stand Up To Him**

Since November of 2018, there has been an 11-point increase in the share who want Democrats to stand up to Trump (from 19% then to 30% now). Independents say "a check and balance" best describes what Democrats' role in government should be (44%).

Which of the following best describes what the Democrats' role in government should be in relation to the Trump administration?

Nationwide surveys of registered voters; Each wave represents approximately 1,000 interviews taken over the prior three-five days.

Latest wave conducted February 20-February 24, 2025. For more info, visit navigatorresearch.org.

Americans Feel Democrats Should Support a Budget if It Meets Their Conditions, Rather Than Object No Matter What

Seven in ten Americans feel that Democrats should support a budget if it meets their conditions, including bipartisan majorities.

Which is closer to your view, even if you don't agree with either side fully?

Democrats who say they should be willing to support a budget, as long as it meets their conditions: that it doesn't cut education from schools, take healthcare that people depend on, or defund research into lifesaving cures	Democrats who say they have to go along with whatever budget President Trump and Republicans in Congress come up with because Republicans are in the majority	Net Agree Overall	e With Dem Dem	nocrats Pus Ind	shing Back Rep

About Navigator

In a world where the news cycle is the length of a tweet, our leaders often lack the real-time public-sentiment analysis to shape the best approaches to talking about the issues that matter the most. Navigator is designed to act as a consistent, flexible, responsive tool to inform policy debates by conducting research and reliable guidance to inform allies, elected leaders, and the press. Navigator is a project led by pollsters from Global Strategy Group and GBAO along with an advisory committee, including: Jessica Floyd, The Hub Project; Christina Reynolds, EMILY's List; Mike Podhorzer, AFL-CIO; Jesse Ferguson, progressive strategist; Navin Nayak, Center for American Progress Action Fund; Stephanie Valencia, EquisLabs; and Melanie Newman, Planned Parenthood Action Fund.

About the Study

Global Strategy Group conducted a public opinion survey among a sample of 1,000 registered voters from February 20-February 24, 2025. 100 additional interviews were conducted among Hispanic voters. 74 additional interviews were conducted among Asian American and Pacific Islander voters. 100 additional interviews were conducted among African American voters. 100 additional interviews were conducted among independent voters. The survey was conducted online, recruiting respondents from an opt-in online panel vendor. Respondents were verified against a voter file and special care was taken to ensure the demographic composition of our sample matched that of the national registered voter population across a variety of demographic variables. The margin of error for the full sample at the 95 percent level of confidence is +/- 3.1 percentage points. The margin of error for subgroups varies and is higher.
