| May 2025 N=1500 | Feb 2025 N=1500 |
|-----------------------|-----------------------|
|-----------------------|-----------------------|

As you may know, Republicans in Congress recently passed a budget bill. Here are statements that supporters and opponents of the Republican budget plan might make.

Supporters of the budget say that this plan will get the country and the economy back on track by cutting taxes and cutting spending to get the country's finances in order which will bring down inflation. This budget will increase our energy independence to lower energy costs, eliminate the tax on tips, and provide the largest investment in our border security in a generation. This budget plan roots out government waste, protects Medicaid for those who really need it, increases the childcare tax credit for working families, and will help American families get ahead after four years of struggling.

Opponents of the budget say this plan will give massive tax cuts to the ultra-wealthy while raising costs and taxes for working American families and adding \$3.8 trillion to the deficit. To fund the largest billionaire tax cut in history, Republicans in Congress passed the largest cut to Medicaid in history - putting at risk health care for people in nursing homes and kids who are counting on it. They're taking away tax credits, forcing up the insurance premiums for working people, and could take away health care from 13.7 million Americans.
