As you may know, Paraquat is a pesticide that is linked to Parkinson's Disease and increased risk of kidney and thyroid cancer. It has been banned in over 70 countries, including the European Union and China where its parent company is based, but is still being used for farming in America where it affects workers and nearby residents. Accidents have also contaminated drinking water sources, forcing locals to purchase bottled water since it is highly poisonous.

	*Top Choice	*Top 3 Choices	*Scores
[SNAP] Trump and Republicans made the largest cuts to the food assistance program, known as SNAP, making it harder for more than 40 million Americans, including 16 million low-income children and 8 million seniors, to afford to buy healthy foods.	32%	51%	12.2
[PESTICIDES] Trump and Republicans have refused to ban certain dangerous pesticides, like Paraquat, that have been banned in over 70 countries and has been linked to Parkinson's disease.	25%	45%	10.7
[CORRUPT] Trump and Republicans have put former food and agriculture lobbyists and executives in charge of overseeing the country's food policies. This has led to the elimination of protections that keep food safe and has allowed food companies to price gouge customers.	12%	41%	10.3
[INSPECTION CUTS] Trump and Republicans have cut funding for food safety inspections leading to more food contamination and risking outbreaks and foodborne illnesses from unsafe foods.	4%	26%	8.2
[BIG FOOD] Trump and Republicans have given more power to the corporate food industry by giving them subsidies and decreasing regulations, allowing corporate consolidation with a few companies producing most of the food supply.	7%	25%	8.3
[KIDS] Trump and Republicans failed to fund free school lunch programs that allow low-income children to receive at least one guaranteed meal a day.	4%	26%	8.7
[TARIFFS] Trump and Republicans imposed tariffs on food and agriculture products that have driven up food prices for Americans, especially on healthy foods like produce and meats which have gone up nearly 3% in less than a year.	6%	22%	7.6
[FARMERS] Trump and Republicans have upended the livelihood of farmers with unpredictable tariffs and the termination of contracts that have put small and local farms on the brink of financial ruin.	3%	18%	7.8
[IMMIGRATION] Trump and Republicans' mass deportation policy has led to a shortage of workers on American farms and in food processing plants, which has caused food prices to increase as producers struggle to get food on shelves.	4%	20%	7.6
[MERGERS] Trump and Republicans have allowed food and grocery company mergers that eliminate competition and allow a few companies to control the entire market and raise prices on consumers.	1%	14%	7.1
[MEAT] Trump and Republicans have changed nutrition guidelines to push Americans to eat more red meat which experts say leads to an increased risk of heart disease and colon cancer.	4%	10%	5.6
[WORKER SAFETY] Trump and Republicans eliminated health and safety protections for farm workers making where our food is grown and produced less safe.	0%	3%	5.8

<p>Q30_5. [SICKNESS] The health care system is broken, and Americans are sicker now than at any other point in modern history. Trump and Republicans are making these problems worse by encouraging Americans to eat foods known to cause heart disease and colon cancer and allowing the food industry to make our food less safe with the use of cancer-causing chemicals.</p>	Very serious concerns	33%

<p>Q30_7. [KIDS] Trump and Republicans are hurting American children and setting them up for worse health outcomes than previous generations by making it harder for them to access healthy foods. They cut funding to support farm to school programs and food banks, passed the largest cut to food assistance in history, and ended the decades-old practice of putting fluoride in water to reduce tooth decay. They have even allowed food companies to use cancer-causing chemicals in snack foods targeted to children.</p>	Very serious concerns	46%

<p>Q30_9. [DEPORTATIONS] Trump and Republican mass deportation policy has caused massive worker shortages throughout the food and agriculture industry leaving restaurants short-staffed across the country and affecting farm workers and staffing in food processing plants. This has caused the price of healthy food options in grocery stores to skyrocket with no end in sight.</p>	Very serious concerns	38%
