Here is some information on voting in the upcoming midterm elections:

Supporters of Trump and Republicans say they are working to make sure American elections are secure and free from fraud. They are advocating for common-sense, bipartisan solutions, like making sure voters have a valid ID and proof of their citizenship, to make sure only American citizens are voting in our elections. Voting in elections is sacred and we need to make sure American citizens' voices are heard, not those voting illegally.

Opponents of Trump and Republicans say they are trying to rig the elections in their favor and intimidate people who they think will vote against them to try to prevent them from voting. They've changed district lines to give themselves a better chance of keeping power in Congress, they are threatening to send ICE agents and federal law enforcement to polling places to intimidate people who show up to vote in areas with heavy minority populations, and the Justice Department is forcing states to send private voter information for review. Some have even suggested that the federal government run elections instead of states which violates the Constitution. **[SPLIT C]**

Opponents say that, despite efforts by Trump and Republicans to rig the elections in their favor and intimidate people who they think will vote against them to try to prevent them from voting, there have been thousands of state and local elections since Trump took power and our elections have never been more secure. People who show up to vote are safe, have not been harassed, and all legitimate votes have been counted. The courts have consistently ruled to allow local officials to run elections and that will not change. But Trump's attacks highlight the importance of voting to make our voices heard and stand up for the issues we care about. **[SPLIT D]**

Q29. Here are some statements from people who oppose Trump and Republicans' attempts to change who can vote and how. After each, please indicate whether it is a very convincing, somewhat convincing, not too convincing, or not at all convincing reason to vote in the upcoming midterm elections in November.

Q29_1. [WILL OF THE PEOPLE] Elections are meant to represent the will of the people. If politicians can use their power to manipulate elections that are supposed to be free, fair, and secure, Trump or any president can ignore the will of the people and rig elections to stay in power. We need to vote to send a message that the power of the people is stronger than one man.	Very convincing	61%

	Not too convincing	6%
	Not at all convincing	10%
	Don't know	5%
Q29_2. [STRONG DEMOCRACY] Our democracy is strongest when every eligible citizen can participate. As Trump and Republicans are working to make it harder for people to vote, it is even more important for every eligible voter to make their voice heard by showing up and voting to stand up to their efforts.	Very convincing	60%
	Somewhat convincing	22%
	Not too convincing	5%
	Not at all convincing	9%
	Don't know	4%
Q29_3. [THREATS] Trump and Republicans are threatening to send ICE agents and the National Guard to polling locations in immigrant communities and having the Justice Department review voter information. We need to show up to send a message that their intimidation tactics will not work and they will not scare people into staying home.	Very convincing	53%
	Somewhat convincing	22%
	Not too convincing	7%
	Not at all convincing	11%

Q29_4. [EASY] The truth is that despite all of the talk about Trump's efforts to take over the election or change the rules around voting, there have been no major changes in election rules and voting continues to be safe and secure. When more people show up, it strengthens the power of regular people to have their voices represented by the people in power.	Very convincing	39%

Q29_5. [OUT OF CONTROL] Since coming into power, Trump and Republicans have abused their power, have weaponized the government for personal gain, and have targeted people who disagree with them. The only way to stand up to their unchecked power is to vote them out of power and that is why it is critical to vote in the midterm elections in November.	Very convincing	68%
	Somewhat convincing	14%
	Not too convincing	4%
	Not at all convincing	10%

Q29_6. [COSTS] Since taking power, Trump and Republicans have driven up the cost of everything from groceries to healthcare to gas. It is too expensive to live these days, and we need to vote to put a stop to their harmful policies that make it harder and harder for families.	Very convincing	69%
	Somewhat convincing	15%
	Not too convincing	4%
	Not at all convincing	8%
	Don't know	4%
Q29_7. [CORRUPTION] Trump and Republicans have used their power to make billions of dollars for themselves, from steering contracts to their businesses to trading stocks in companies that are impacted by policies that they have influence over. Meanwhile regular people are struggling to fill their tanks and put food on the table. That is why we need to vote them out of office to support people who will actually work to make a difference.	Very convincing	68%

If they are able to take power of Congress, they will work to end the corporate greed by utility companies, insurance companies, and landlords that drive up costs to pad profits, and undo the massive health care cuts that are forcing millions to lose health care. Dear Voter,

Thank you for choosing to receive your ballot by mail for the 2026 Primary Election. I am glad so many neighbors continue to use Vote by Mail ballots to participate in democracy and make their voices heard.

As you may be aware, there have been several proposed policy changes related to mail in voting that have come out of Washington. I would like to reassure all local voters that mail in ballots remain a safe and secure method to vote. Voters in our state have been utilizing Vote by Mail for decades as a trusted voting method, and I am especially proud that our county is consistently top of the list for Vote by Mail returns. Around the country, mail in ballots have served as the preferred way for voters to cast their ballots for years.

While the news we read can often be concerning, my office, along with the bipartisan Board of Elections, are committed to running fair elections for all eligible voters.

Sincerely,
Local County Clerk
